HEALTHY FAMILY. HAPPY MOM.
Curcumin Chewable - Natural Immune Booster

Curcumin Chewable is a versatile pronutrient to support overall wellness and good health by offering the benefits of quality Curcuminoids from nature’s own turmeric roots. It is a safe and effective solution that offers immune protection across all seasons for all ages.

A healthy childhood largely depends on a good immune system. Immunity is our body’s defense against infection and disease and a child’s immune system is highly sensitive. Child’s immunity can be affected by the following factors:

• Seasonal changes
• Environmental factors
• Air/food borne diseases
• Lack of good nutrition

ENVIRONMENT
Schools and playgrounds are common spaces where infections are prevalent. Diseases have a greater chance of spreading in such spaces. Body needs defense against dust, bacteria and viruses everyday.
TURMERIC – A GIFT OF AYURVEDA

One of nature’s greatest gift to mankind is turmeric. Its active constituents Curcuminoids, have been documented in ancient texts such as Ayurveda where it is considered vital to naturally improve immunity. While 7500 and more scientific publications speak volumes of its acceptance and recommendation by the scientific fraternity; its benefits have been ideally translated to reach common man through a number of general articles, trending blogs and a handful of books. Safe and effective, Curcumin Chewable is a preferred solution to enhance the body’s defence mechanism against seasonal changes, environmental factors and lack of nutrition.

SEASONAL CHANGES

Specific seasons bring along with it a greater chance of falling ill. Monsoons are responsible for a surge in numerous water-borne diseases like jaundice and diarrhea. Winters bring with skin infections and allergies. Although better than winter and rainy seasons, summer sees more of diseases like chicken pox and measles. It is therefore necessary to give the immune system a boost with good nutrition through it all.

NUTRITION AND IMMUNITY

Good nutrition can boost our body’s immune defense mechanisms. Products like sugar, soda and processed foods can damage the system. Ayurveda, in numerous ways has always been the basis of Indian cooking culture. It has provided numerous solution to naturally improve immunity.
